

Contamination Status

NOTE: Under the Control of Substances Hazardous to Health Regulations 1994, **Hidden Analytical** has a duty to control its employees exposure to all substances hazardous to health. In addition, **other employers** have a similar duty under those Regulations, towards non-employees who may be affected by their handling of hazardous substances used by that employer. Information supplied on this form about the composition of any contaminants/deposits on equipment returned by you will be used to help discharge both these requirements.

'Uncontaminated' means the equipment has not been used, or that it has been used only with substances that are not hazardous.

'Contaminated' means it has been used with any substances classified as hazardous under EU Directive 67/548/EEC (as amended) or OSHA Occupational Safety (29 CFR 1910).

Please contact Hidden Analytical for advice (<http://www.HiddenAnalytical.com>).

Item type:

Serial No.

Process used:

Is it possible that any part of the equipment is contaminated e.g with process deposits? YES NO
