

Hidden EGAsoft

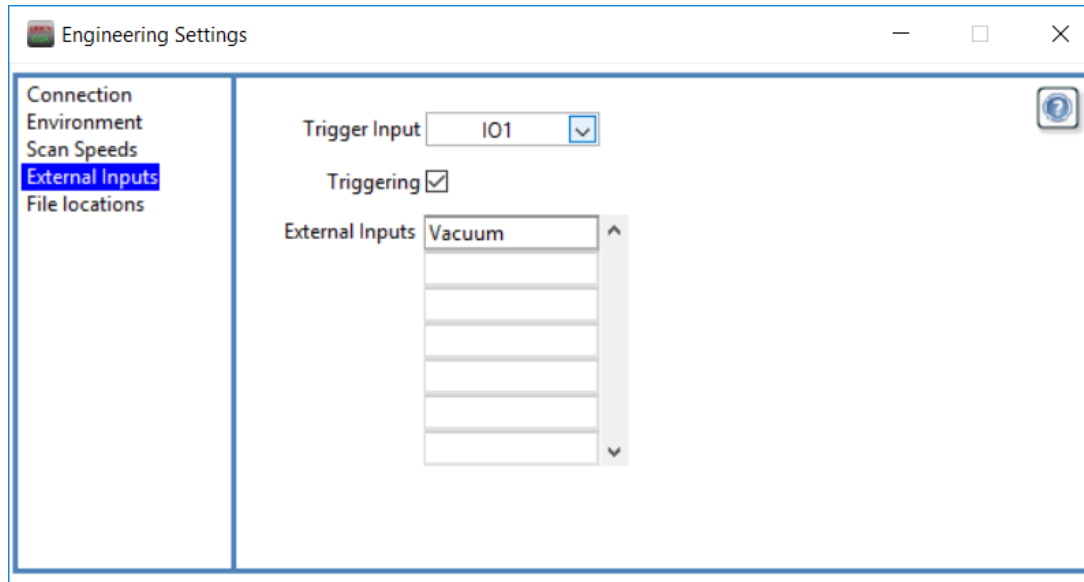

Data Acquisition software for TGA-MS Applications

Auto Sequencing Software

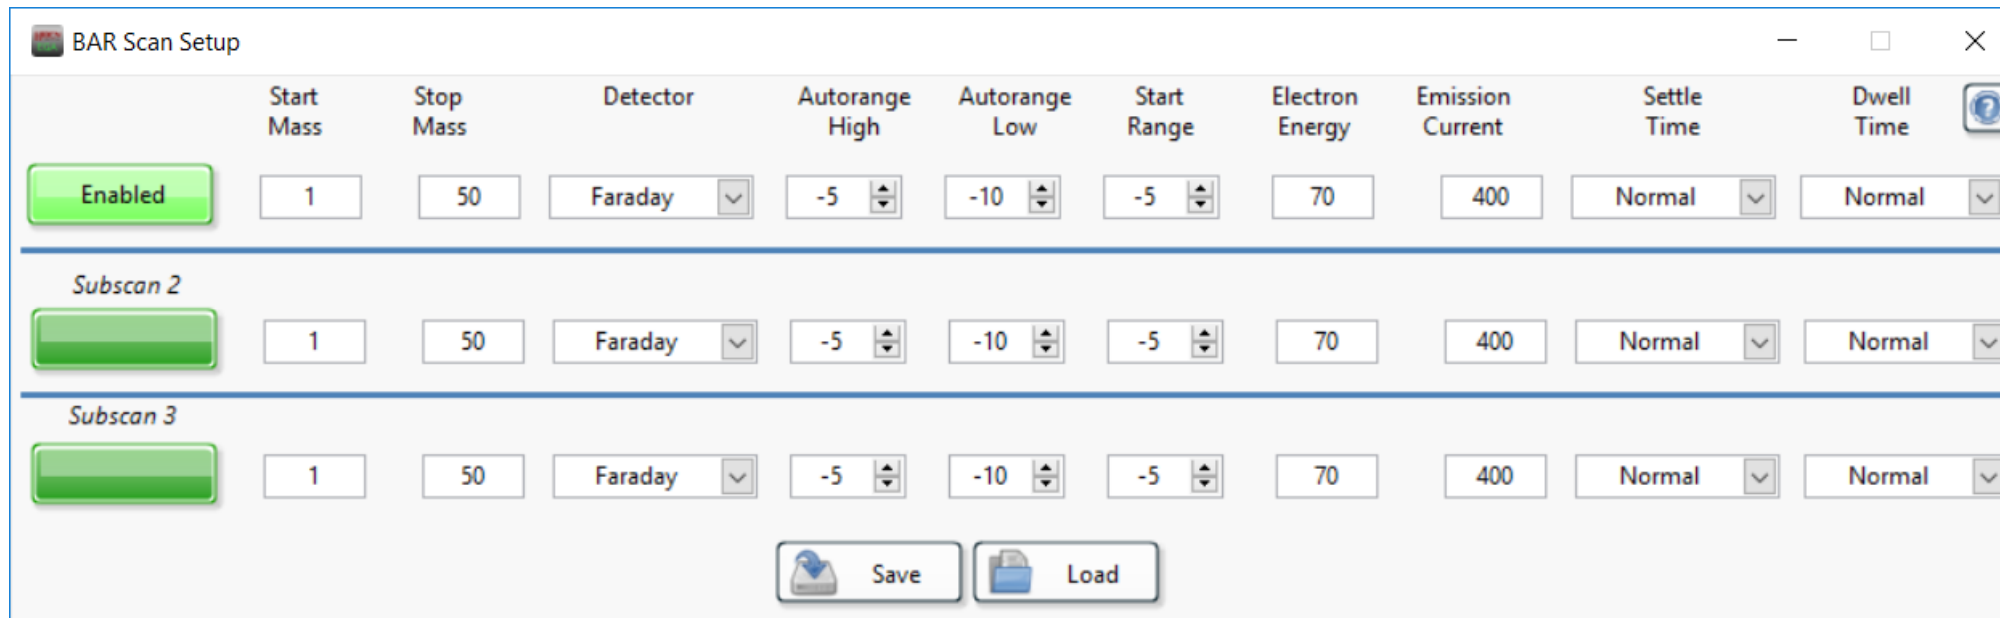

Configure a sequence of optimised scans for multiple stage analysis. Scans separated by start/stop signal

Simple Stop/Start Command Setup

Auto Start/Stop
setup configured
by simple switch
control

Configure Multiple Bar Scans

The screenshot shows the 'BAR Scan Setup' window with the following configuration:

	Start Mass	Stop Mass	Detector	Autorange High	Autorange Low	Start Range	Electron Energy	Emission Current	Settle Time	Dwell Time
Enabled	1	50	Faraday	-5	-10	-5	70	400	Normal	Normal
<i>Subscan 2</i>										
	1	50	Faraday	-5	-10	-5	70	400	Normal	Normal
<i>Subscan 3</i>										
	1	50	Faraday	-5	-10	-5	70	400	Normal	Normal

Buttons: Save, Load

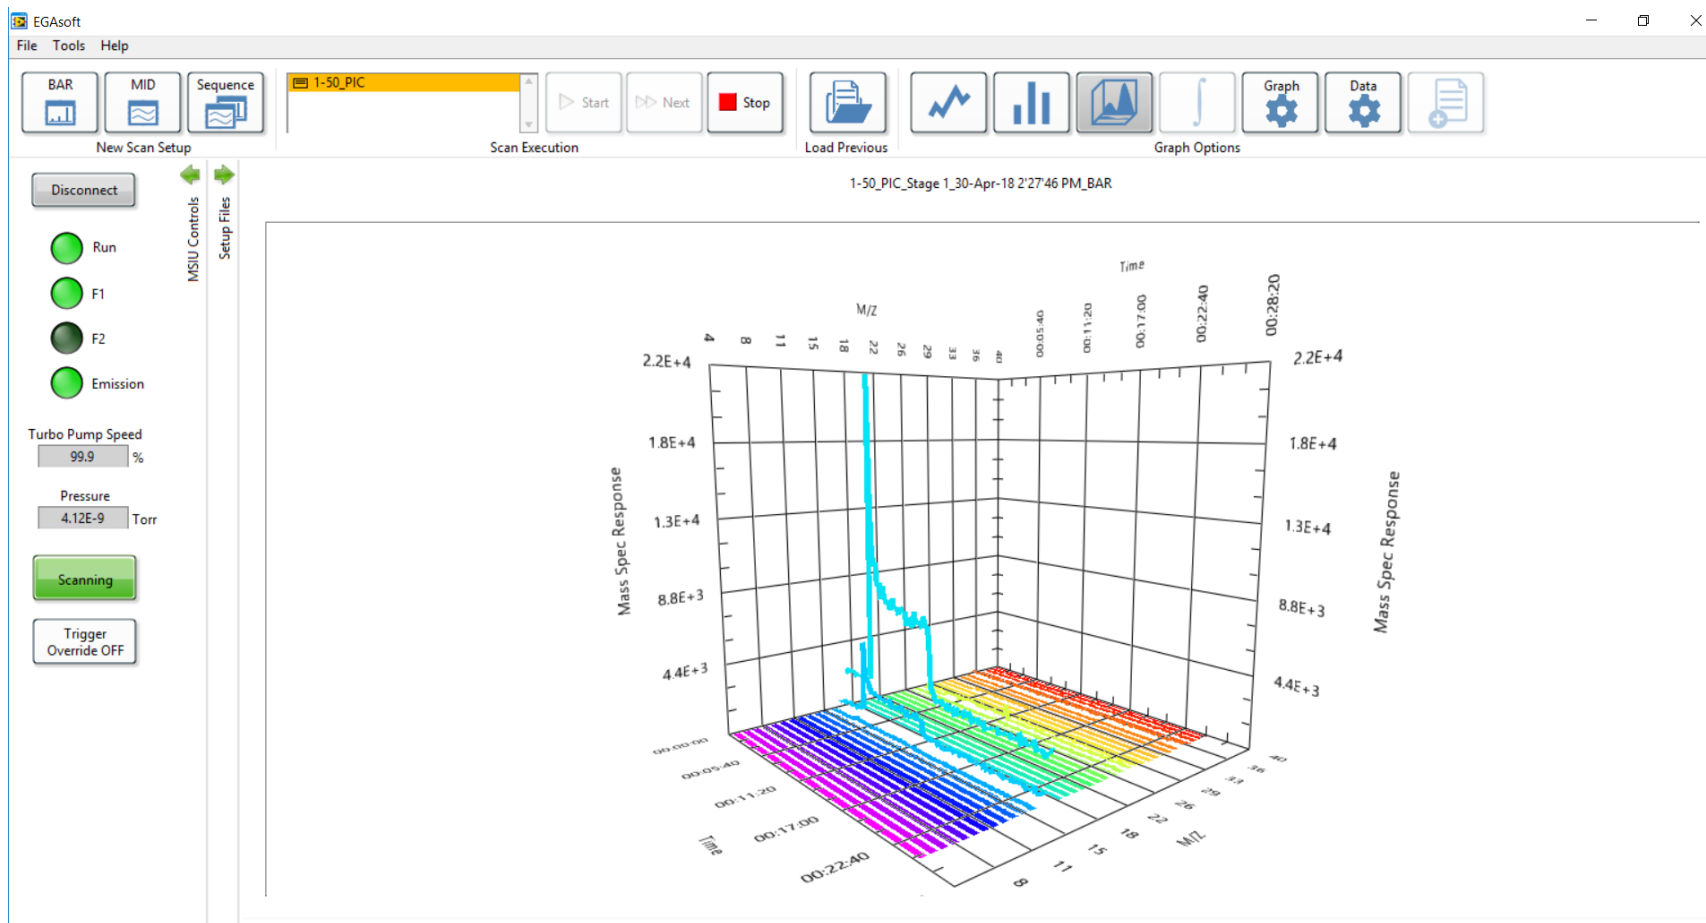

Bar scan setup – run up to 3 bar scans at a time.

The mass regions of interest are scanned, the parts of the mass range of no interest are ignored, reducing the data acquisition time.

Mass spectrometer parameters can be optimised for each part of the scan.

3D Bar Scan Viewer

Real time 3D data viewer for easy determination of bar scan trends

MID View

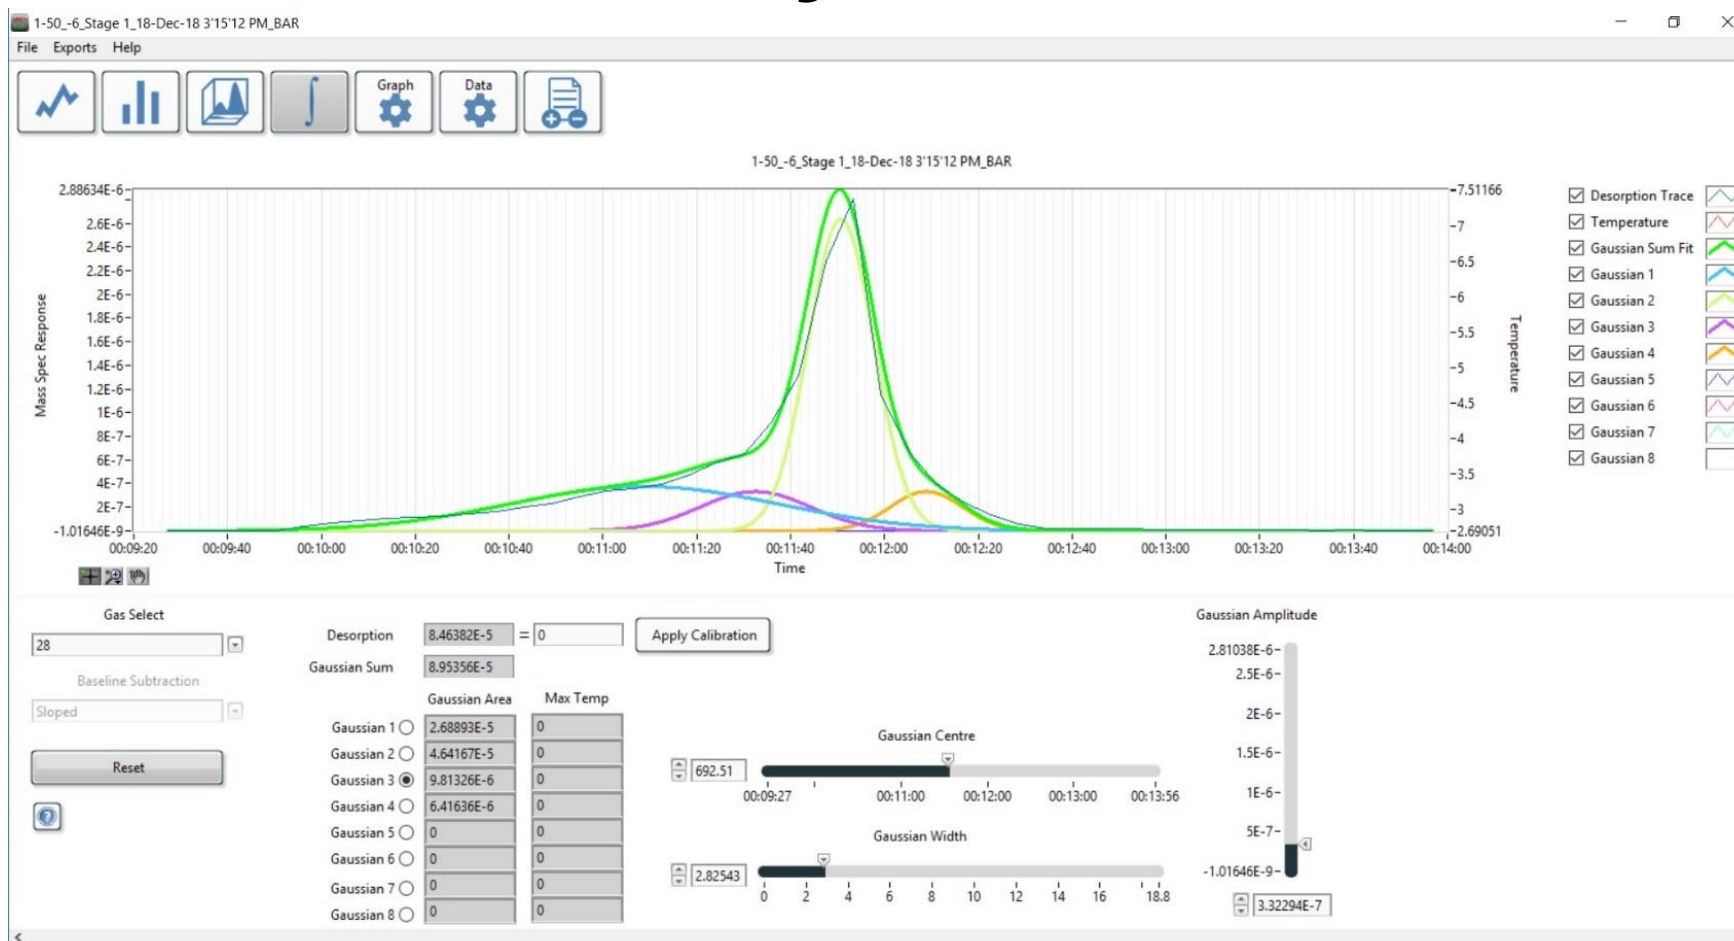

Simple MID setup - display up to 16 trends at a time

Bar View

Data Analysis Software

Peak integration/fitting routines

Data Export Facility

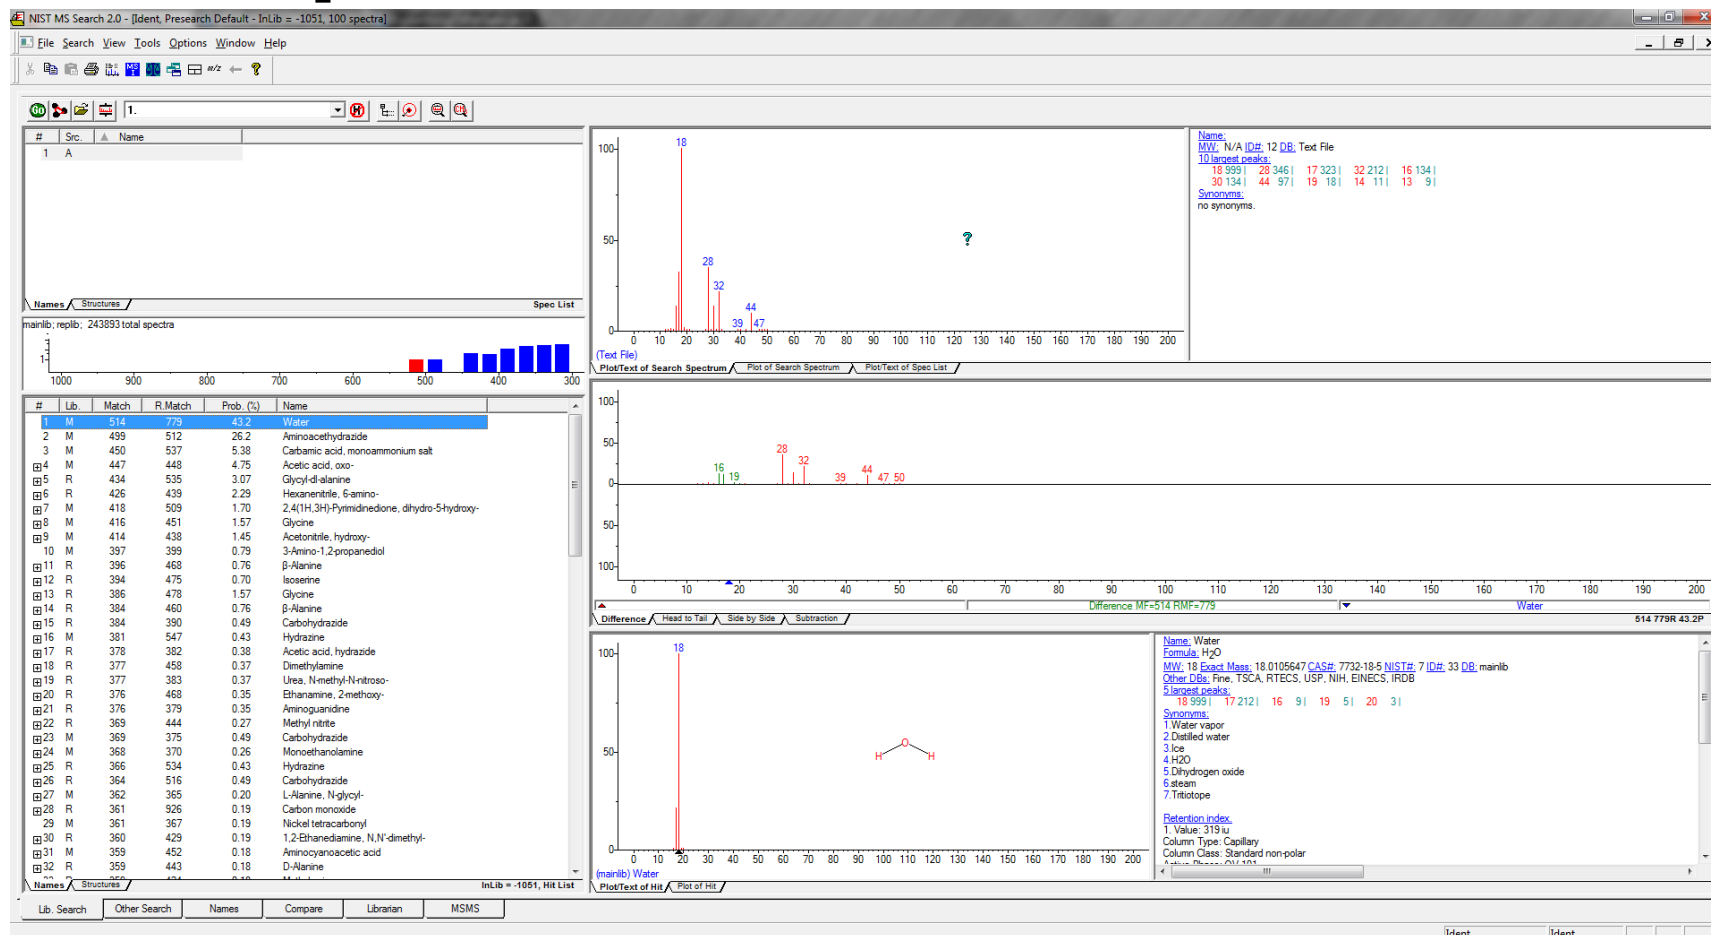

- Export to correct format for import to TGA software
- Export to Excel
- Export to NIST MS library:
 - Two methods included:
 1. Complete spectra from selected BAR scan
 2. Selected peaks from MID view

NIST export from a selected BAR scan

NIST import from a selected BAR scan

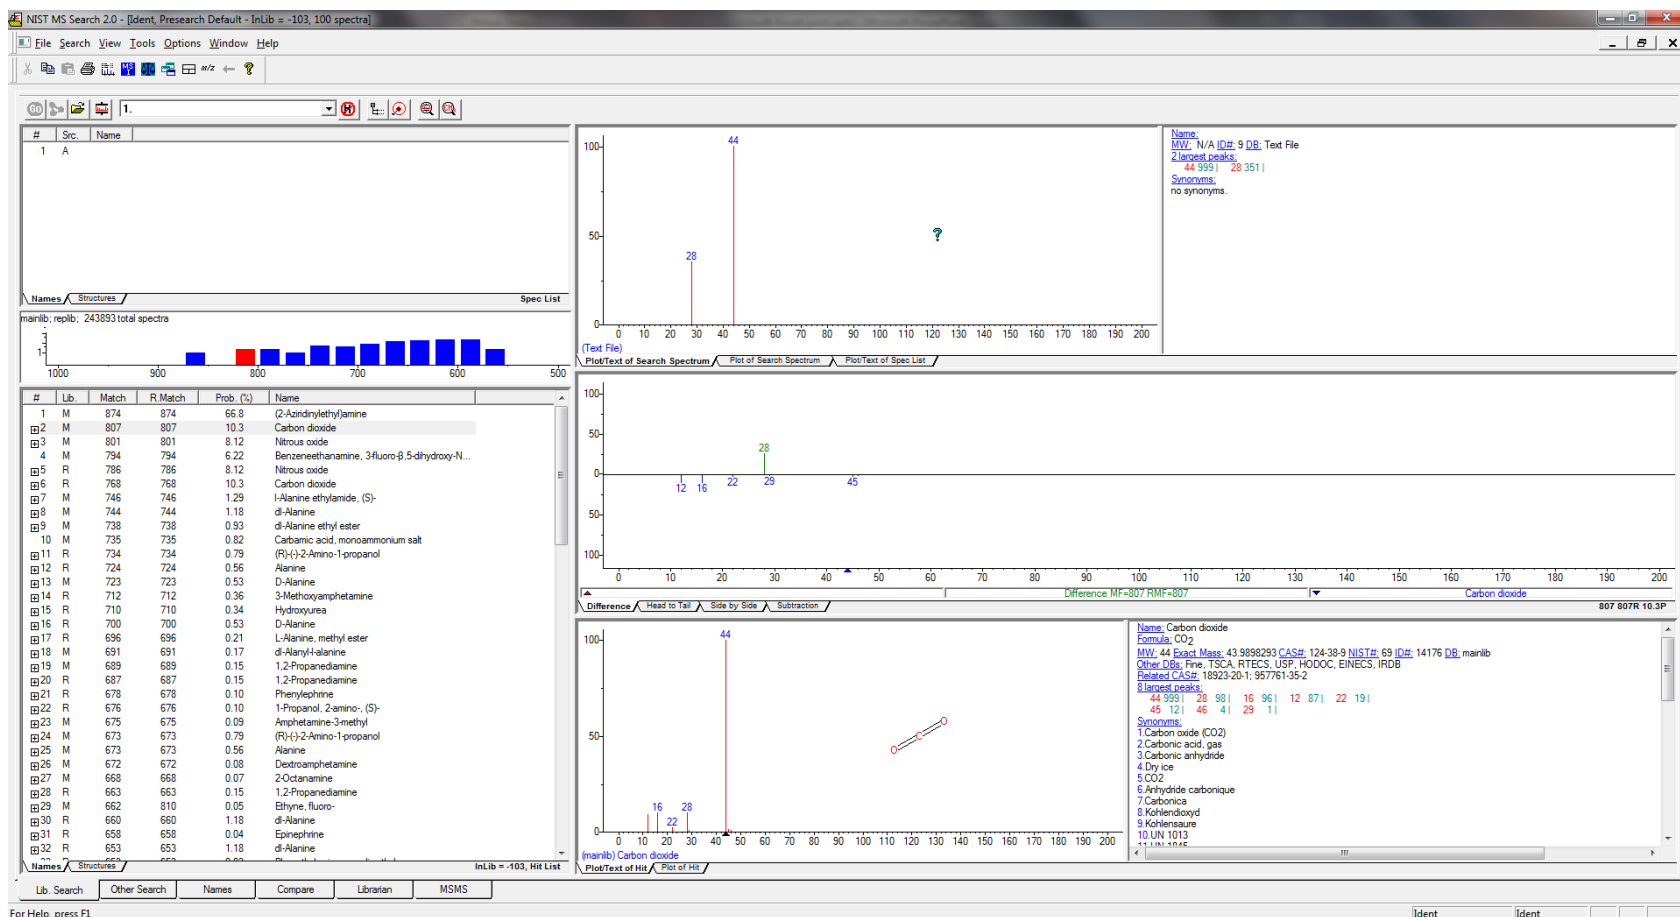

When importing a Bar scan the whole mass spectrum is used in the NIST search routine

MID View - export to NIST

Simple MID setup - display up to 16 trends at a time

NIST with imported selected MID peaks

Importing MID peaks allows the user to choose groups of peaks to narrow the NIST search

- 
- A photograph of a modern, two-story office building with a grey facade and large glass windows. The building has a prominent entrance on the left and a long, low profile. A large, semi-transparent white circle is overlaid on the left side of the image, containing a bulleted list. The sky is clear blue, and there are some trees and bushes in the foreground and background.
